Lieutenant Richard Fleischer of this city, who recently went to Douglas with a carload of ore from the Buena Vista mines owned by himself and Mr. Wm. One day this week James B. Mix, one of Uncle Sam's eagle-eyed customs inspectors, called the attention of a number of friends to a Southern Pacific boxcar from the south containing graphite being sent east. The car had been in the battle at the Santa Rosa ranch south of Ortiz, between state troops and federal soldiers, recently, and was riddled with bullets, there being possible a thousand holes in the car, which the federals evidently used for a fortification during the battle in which they were defeated. Both sides and roof of the car had been struck many times.

Aviator Didier Masson, now in Hermosillo with his big flying machine, with which the Sonora state troops hope to put the Mexican federal gunboats out of business, is one of the best birdmen in the business, and when he commences to let go of things in the vicinity of Guaymas, someone is liable to get hurt. Last Tuesday Masson gave an exhibition flight at Hermosillo with the aeroplane which on Thursday night of last week was recaptured from the United States authorities at Pike's ranch in Pima county, and smuggled across the international line into Mexico. The flight at Hermosillo is said to have been very successful, the birdman remaining in the air over an hour.
